## EXPERIENCE

- 

**Tarana Wireless Inc**

SENIOR SOFTWARE ENGINEER

Apr 2024 - Today

- Take leadership to suggest, discuss, improve and implement architectural changes
  - Suggest process improvements that benefit not just a single team but whole organization
  - Develop PoC on the fly and quickly to do feasibility study
  - Improve user experience by suggesting UI/UX design improvements and implement them
  - Improve developer productivity by making changes to devops pipelines and improving shell script performance
  - Collaborated with product owners to implement and architect new features
  - Worked with multiple stakeholders to enhance UI, UX, application performance, and observability at the feature level
  - Created high-level and low-level architecture designs
  - Assisted junior and senior colleagues in troubleshooting issues and making key technical decisions
  - Developed various tools and code enhancements to accelerate the development process
  - Eliminated daily hurdles to reduce time to deployment in production
  - Encouraged and enforced proper unit testing and adherence to standard development practices
  - Promoted awareness of the latest industry updates and integration into team practices
- 

**PayPal Inc**

MEMBER OF TECHNICAL STAFF I

May 2021 - Apr 2024

- Collaborated with product owners to implement and architect new features
  - Worked with multiple stakeholders to enhance UI, UX, application performance, and observability at the feature level
  - Created high-level and low-level architecture designs
  - Assisted junior and senior colleagues in troubleshooting issues and making key technical decisions
  - Identified areas for technical improvement to enhance developer experience
  - Developed various tools and code enhancements to accelerate the development process
  - Eliminated daily hurdles to reduce time to deployment in production
  - Encouraged and enforced proper unit testing and adherence to standard development practices
  - Promoted awareness of the latest industry updates and integration into team practices
- 

**Noustek Labs LLC**

PARTNER AND TECHNICAL CONSULTANT

Mar 2020 - May 2021

- Collaborated with clients and stakeholders to analyze requirements, assess feasibility, and select technology stacks
  - Partnered with designers to ensure consistent design fostering fast and performant development
  - Architected robust, user-friendly, and maintainable web applications
  - Continuously learned and applied new technologies appropriately
  - Conducted UI/UX reviews and identified critical business stories
  - Established CI pipelines including deployments, static code analysis, vulnerability and security scans
  - Mentored and motivated new team members to deepen their technical knowledge
  - Developed design guidelines aligned with design team specifications for developers
  - Built rich, accessible UI following design guidelines with accompanying unit and end-to-end tests
  - Developed RESTful and GraphQL APIs with unit tests
  - Designed and collaborated on database schema
- 

**ThoughtWorks Inc.**

SENIOR CONSULTANT / UI DEVELOPER

Mar 2018 - Mar 2020

- Worked with clients/stakeholders to understand requirements and decide on appropriate tech stack
  - Created or adapted web application architectures for usability and maintainability
  - Designed CI pipelines including deployment, code analysis, vulnerability and security scanning
  - Mentored junior team members to enhance their learning and technical skills
  - Developed UI components aligned with design guidelines
  - Authored unit test cases to ensure code quality
- 

**Extentia Information Technology**

SENIOR SOFTWARE ENGINEER

Sept 2016 - Mar 2018

- Developed UI components based on design guidelines
  - Debugged and deployed bug fixes to production
  - Created RESTful APIs
- 

**Emtec Inc.**

SOFTWARE ENGINEER

Aug 2014 - Sept 2016

- Developed UI components as per design guidelines and created RESTful APIs
  - Built reusable HTTP interceptors and earned awards for rapid issue resolution

## EDUCATION

- 

**Fergusson College, Pune**

M.SC. IN INDUSTRIAL MATHEMATICS

2011 - 2014
- 

**Fergusson College, Pune**

B.SC. IN MATHEMATICS

2008 - 2011

## SKILLS

Database Schema Design	Security/Vulnerability Scan	Mentorship
UI/UX Review	Architecture Design	RESTful API Development
Progressive Web App (PWA)	Performance Tuning	React.js
Vue.js	CI/CD	TypeScript
Unit Testing	GraphQL	Docker
Git	CSS	HTML
JavaScript	Golang	Node.js
Debugging		

## LANGUAGES
